

For years our customers have depended on Duct Direct for high quality yet competitively priced sheet metal. We stress to our employees to spend the time and effort in the beginning so that our finished product is exactly as you ordered it. We understand the potential problems you face every day and we will work with you so your project is as successful as it can be. We have brought in specialists to keep our products and capabilities updated so we can always reach or meet your needs. Duct Direct strives to be your only source for all HVAC ductwork and accessories.

A handwritten signature in white ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.

Tony McCorvey Sr.
President

DUCT DIRECT has been in the sheet metal business since 1925 and is one of the oldest and most well respected HVAC ductwork fabricators. With a 162,000 square foot facility, Duct Direct has the capacity to manufacture most any size job in any time frame desired. Duct Direct specializes in the fabrication of rectangular, round (spiral or triple rib), oval, and double wall ductwork. Our fabrication standards meet and exceed ASHRAE or SMACNA requirements. We pride ourselves on having the best quality product in the market today along with the ability to keep up with our changing business environment. Quality control practices are implemented throughout our plant to ensure every order is complete and accurate.

We manufacture round spiral pipe in diameters of 3" through 90" increments up to 14 gauge. We stock 10'-0" lengths of spiral pipe from 3" to 18". We stock 4" through 12" elbows 45° or 90°. All stock items are available for immediate delivery or pickup.

Our warehouse includes a custom 20 station coil line, 12 welding stations, 8 press brakes, 7 plasma tables, 3 spiral machines, fabricating duct machine, flat oval machine, automated pipe seam welder, liner cutter machine, and much more. We have installed multiple overhead cranes and a conveyor belt system throughout the entire warehouse to reduce our labor costs.

Need Accessories? We have flat slips from 5 1/2" to 11 1/2" and standing slips from 13 1/2" to 23 1/2" and Drives from 7" to 23"; or you can order any of these items in 10' lengths. We can produce any size turning vanes you need. Duct Direct can cut angle to length and customize the holes; we can also paint the angle any color you desire. We can make any single blade or multi blade manual volume damper.

With 18 project managers using AutoCAD on a daily basis, we can quickly and efficiently detail any size job. We offer both 2D and 3D drawings.

We offer services such as epoxy coating, sandblasting, spray painting, and feel free to ask about anything else. If your project requires the duct to be cleaned and wrapped with stretch wrap, we offer that as well.

Duct Direct is located in Houston, TX and has easy access to the port of Houston, which allows for transportation to all areas of the world. We have met the schedule of some of the largest construction projects in the world. We offer the same services for your custom duct system requirements.
